After

## Real Stories about Real Smiles.

**Q: Why did you have the cosmetic dental work done?**

"Dr. Utley has been my dentist for over 15 years and had encouraged me to consider doing something to improve my smile all that time. I guess I finally got tired of looking at my old smile. Dr. Utley showed me what a difference he could make and that's when the light went on. It was time to do something about it."

**Q: What was the cosmetic dental process like?**

"I had a total of about six visits to get all the work done. The first appointment was an evaluation and roadmap of what was to be done.

The next few visits took care of some cavities, a necessary root canal and the overall work of stabilizing my mouth prior to the extensive cosmetic work. The crown and bonding work came next along with temporaries while the crowns were being made. During that wait-time, several of my good teeth were whitened to match the rest of the work being done.

Something significant was the care Dr. Utley took in making sure the size, placement and color of the new teeth fit my facial dimensions and proportions. He took very careful measurements to make sure everything was perfect. The result was a smile that looked like it belonged to me."

**Q: How did you feel about your new smile?**

"The interesting thing was that many of my family and friends knew I was going to get some work done, but they didn't immediately recognize exactly what was different. My new smile was so natural it surprised people."

"Some of the biggest compliments came from my family in California who were excited to see the results. I particularly enjoyed the reaction of my golfing buddies. We played several holes before anyone said 'Wow, look at Don's great new smile!'"

**Q: Why did you choose Dr. Utley?**

"Dr. Utley has a great staff and a wonderful chair-side manner. I've been so impressed with his work and how I've been treated that I chose to have the cosmetic work done outside of my insurance provider network. When you're willing to pay for something like this out of your pocket, you must be very sold on the idea of a new smile and very pleased with the results. My trust was not misplaced."

"We played several holes before anyone said 'Wow, look at Don's great new smile!'"

"Come and see what a beautiful smile we can create for you!"
